SUBJECT Bioelisa Stopping solution:

Dear Customer,

We wish to inform you that the colour cap on the vial of bioelisa Stopping solution **will be changed from red to blue**. The type of screwed cap, body vial and dispensed volume will remain exactly the same.

Manufacturing problems in the supply of the red caps have led biokit to substitute their colour.

New caps will be introduced progressively as new bioelisa batches are produced. Should you feel the need, please inform your end customers, as there will be no informative insert inside the kits.

We apologize for any inconvenience this decision might cause.
